## lighting resources

### Customer Referral Program

We at L.L.R. strive to provide an overall excellent customer experience from the very beginning. Starting with our complimentary night time demonstration, detailed lighting design, time efficient installation of our architectural grade LED outdoor lighting and our follow up evening light adjustments to ensure the best lighting effect.

If you are interested in sharing your experience with family and friends, we would be honored to assist with their outdoor lighting needs. As we recognize the value and importance of a personal referral, we have developed a program that is rewarding for all involved. If a new customer references you or your home as their referral source, we will provide you with a \$25 Visa Gift Card. The new customer will receive \$50.00 discount on their total lighting package. There is no limit to our referral program, and we look forward to being of service.

We hope you enjoy your lighting and thank you!

Yours in appreciation,

DeAnna Bray
